You'll be responsible for developing and delivering plans for clients that are anchored in OCM fundamentals, strategic communications or a hybrid of both. You will have experience in the IT space and the change management needed to bring large organizations through the implementation and successful adoption of it.

How you'll make an impact:

- You'll impress our clients with your knowledge and expertise surrounding OCM and communications and quickly become a valued resource to our clients.
- You are confident setting and guiding the strategy and executing the deliverables.
- You'll work directly with executive leaders to manage projects, gather information and ensure all strategies are driving faster adoption and higher utilization.
- You have by-the-book skills along with the ability to think creatively.
- You'll perform analysis to measure plan effectiveness and adjust as needed and provide status updates to the client and Pivot team.
- You'll build relationships with your client and identify new opportunities.

Why we'll love you:

- You understand how to navigate complex, global organizations.
- You have at least 4 years experience with change management principles, methodologies and tools (Prosci Change Management Certification is preferred; we encourage those with more than 4 years to apply, this is just a minimum). SAP and Salesforce experience is a plus.
- You have experience executing internal communications programs for large organizations - experience in HR or IT communications is a plus.

- You are comfortable and confident working directly with senior leadership.
- You are passionate about your work and equally passionate about being part of the Pivot team and contributing to the agency's growth.
- You are comfortable in an agile environment - change is constant in consulting.

Why you'll love us:

- **Progressive workplace culture:** We support a flexible schedule and work environment. We offer summer Fridays, unlimited paid time off and host frequent team collaborations and celebrations.
- **We invest in our team:** We provide medical and dental benefits, a 401(k) with company match after 6 months of employment, profit-sharing benefits, life insurance, long and short term disability options and budget for professional development reimbursement.
- **Growth opportunities:** As we continue to grow quickly, we are looking for individuals who want to contribute to that growth, whether it's to document a proven process or run a department. We are here to support you and the skills and development you need to realize and achieve those personal and professional goals.
